

AI Investment Agent - Daily Rhythm

One-page reference for Screen tab pills + Trade tab. Times are Eastern (ET). Pacific = ET minus 3 hours.

Morning chain: Daily ingest -> Run screener -> Trade tab -> Refresh live

ONE-TIME SETUP (do once, or when changing universe)

[] Screen -> S&P 500 (adds ~500 tickers; you already have ~537)

[] Full in

EVERY TRADING MORNING (before 10:00 AM ET / 7:00 AM PT)

[] Daily ingest (updates overnight data; ~5-15 min)

[] Run s

DURING THE MARKET (10:00 AM - 2:30 PM ET entry window)

[] Trade tab -> Refresh live before you buy and every 30-60 min if watching

[] Run m

AFTER THE CLOSE (optional, ~4:00-6:00 PM ET)

[] Daily ingest -> Run screener (prepare tomorrow's rank)

[] Review

WHAT EACH SCREEN TAB PILL DOES

Button	Purpose	How often
SP100 / S&P 500 / DC watch	Add tickers to pool	Once (setup)
Full ingest	Download ALL history + metrics	Once, then weekly
Daily ingest	Update stale quotes + bars	Every trading morning
Run screener	14-day rank + Step 3 pass list	After every ingest
Refresh ranked	Reload table from database	Anytime (display only)

Timestamps:

Under each pill on Screen tab: Last: [date/time PT] = when that action last finished. Terminal ingest counts after git pull. est. = estimated from older data.

Terminal shortcuts (Mac):

Open Dashboard.command | ./scripts/run_ingest_mac.sh | ./scripts/run_ingest_mac.sh --incremental (daily)
